

## PUBLIC NOTICE

### Upcoming Improvements

#### NW 153rd Terrace Drainage Improvements Project

The NW 153rd Terrace Drainage Improvement Project is part of the Town's comprehensive plan to mitigate flooding and is funded through the Stormwater Utility System Revenue Bonds Series 2021. The project currently under the design phase will impact the right-of-way along NW 153rd Terrace from NW 92nd Avenue to NW 89th Avenue.

The stormwater project will include the addition of catch basins, French drains, manholes, valley gutters as well as restoration and resurfacing of the existing roadway surface, and new pavement markings. Once complete, the new system will increase stormwater management capacity and is intended to mitigate flooding in the area.

Thank you for your patience and cooperation as we strive to continue Growing Beautifully. If you have any questions or concerns about this upcoming project, please contact Anaily Padron, Capital Improvement Project Manager via email [padrona@miamilakes-fl.gov](mailto:padrona@miamilakes-fl.gov) or at (305) 512-7133.
